**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,17 are rejected under 35 U.S.C. 102(b) as being anticipated by Bleasdale. Figure 1 shows a paper shredder with light source 25 located between the shredder and a bin which is used to help control the shredder motor.

***Claim Rejections - 35 USC § 103***

Claims 2-16,18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bleasdale. The remaining limitations of these claims would have been obvious design choices only once the basic apparatus was known. For example, the exact type of sensor used would have been a design choice once the use of a sensor was known as in Bleasdale. Also, using audio or visual indicators would depend on several factors such as factory noise.
